👤 PROFILE

18 years of experience working with web technologies - developing blogs, ecommerce, SaaS, mobile apps, API's, and integration tools. I'm intuitive, reliable, resourceful, optimistic, and can lead. Being self-taught means I'm a self-starter, I believe there's solution for every problem. I've worked with startups, mid-sized companies, and large enterprises, and can adapt to different environments easily and effectively.

📁 EMPLOYMENT HISTORY

Director of Engineering at Sentral (BHI-Residential), Denver, CO
October 2021 — March 2023

<https://sentral.com>

"The convenience, connection, and comfort of home—amplified. Stay a night, a month, or a year in designer apartment communities that redefine home." Sentral offers Flexible Leases for long-term or short stays. I lead cloud infrastructure and deployments and managed frontend and backend developers on the engineering team to build Sentral apps.

Director, Solutions Architect at Indigo Slate (Zensar), Bellevue, WA
May 2016 — October 2021

<https://www.indigoslate.com>

Beginning as a Senior Software Developer to grow into a Director at Indigo Slate, I lead development and deployment on the "world's first Human Experience Innovation platform" (<https://ruptive.cx>) which was designed to ignite the creation of dynamic personas, hard-to-forget experiences, and a culture of innovation.

Other Projects

Human Experience Index

Survey platform that captures different aspects of company maturity in achieving Human Experience Innovation (Mindset, Strategy, Innovation, Outside-In, Human Capital, Capabilities, and Business Insights)

CX Assessment

Customer Experience Assessment Tools featuring maturity assessment, VoC dashboard, customer-ready surveys, and Go To Market Bullseye
<https://mycxassessment.com>

Maximum Uptime

SVG/JavaScript game showcasing HA on Azure at Microsoft Ignite. The game was deployed as a Docker container with scaling/orchestration handled by DCOS & Marathon on an Azure server cluster.

Pinball Lizard

[Azure Pinball Lizard Video](#)

Software Developer & CTO at NEXME, Bellevue, WA
October 2016 — November 2017

<https://nexme.com>

Real-Estate on Demand. NEXME allows you to request an agent to see a home immediately & purchase without negotiating commission. I started out developing API's until I saw a need for vision and was then invited to take the reigns in leading the tech strategy.

○ **Web Designer & Developer at Ram Mounting Systems (NPI), Seattle, WA**

December 2015 — May 2016

<https://rammount.com>

RAM Mounts has custom mounting solutions for any application or scenario. At RAM I developed their website user interface and also wrote server-side Ruby code which pulled/pushed our inventory from manual, people-managed databases into a webview.

○ **PC Analyst, Information Services at Overlake Hospital Medical Center, Bellevue, WA**

April 2013 — December 2015

<https://www.overlakehospital.org>

IT Support, remote re-imaging of devices, troubleshooting with doctors & nurses, break-fix, monitoring server rooms, checking on the ER frequently. Everything you'd expect working hands on with computers in a Hospital environment :). This role wasn't just about tech, it was about people, making sure people were confident and had the tools they needed to do their jobs well.

★ **EVENTS**

○ **FUTURE OF CLOUD COMPUTING CONFERENCE (FC3), Boston, MA**

<https://www.eventbrite.com/e/the-future-of-cloud-computing-tickets-60146343332#>

Hosted by Conduit, Inc at the MIT Museum. I was able to speak about Hybrid Cloud Management and touch on Collective Computing.

○ **2019 SEATTLE CTO SUMMIT, Seattle, WA**

<https://www.ctoconnection.com/summits/seattle-cto-summit-2019>

A conference for tech industry leaders to share tactics among peers. I spoke about ways to help team members move mountains in their personal lives, thus effecting the overall health of your company.

★ **AWARDS**

○ **OWN IT AWARD 2018**

Recognition for owning the work and pushing forward to make things happen, also clearing a path for others.

○ **INNOVATION AWARD 2018**

Recognition for finding solutions and successfully delivering on fast deadlines for various innovative projects.

○ **INNOVATION AWARD 2017**

Recognition for finding solutions and successfully delivering on fast deadlines for various innovative projects.

★ **CLIENTS**

○ I've had the pleasure of serving these clients on various projects

- Microsoft
- Alaska Airlines
- Sony
- Amazon
- T-mobile
